

## **REGISTER TO OUR ALERT SYSTEM**

The Municipality of Grosse Ile now has a bilingual municipal alert system through ADN Communication (*please refer to the publicity on the next page*). You may sign up to receive alerts by phone, cell phone, text message or e-mail. Please register at the following web address: [grosse-ile.alertesmunicipales.com](http://grosse-ile.alertesmunicipales.com)

Please note that the Municipality will issue an alert in the event of an emergency situation, an important notice, severe weather warnings, etc. However, due to our geographic location and dominant windy climate, we will not send an alert each time there is a strong wind warning issued by Environment Canada.

If you are unable to register, please contact the municipal office at 418 985-2510 and it will be our pleasure to assist you!

## MUNICIPAL ALERTS

Receive alerts wherever you prefer, according to your needs
